

MedXPress Prep Checklist

Everything to gather before you fill out FAA Form 8500-8. From Pilot Medical Guardian.

Item 17: Medications you currently use

List every prescription and nonprescription medication you take. For each:

- ☐ Medication name
- ☐ Dosage and how you take it (all other fields optional)

Item 19: Visits to health professionals (last 3 years)

For each visit with a doctor, PA, NP, psychologist, psychiatrist, chiropractor, clinical social worker, substance-abuse specialist, etc.:

- ☐ Date of visit
- ☐ Provider name, type, and address
- ☐ Reason (treatment, examination, or evaluation)

Item 18: Medical-history questions. Get your explanations ready.

This checklist does not tell you what to report. That is governed by the FAA's instructions and your AME. For anything you expect to mark Yes, have ready:

- ☐ Approximate date of diagnosis or occurrence
- ☐ Treating physician's name and contact
- ☐ Related test results, letters, or records
- ☐ Your explanation, checked for consistency against prior cycles

Bring to your AME exam

- ☐ Your MedXPress confirmation number (your AME cannot open your application without it)
- ☐ Valid photo identification
- ☐ Any physical records tied to Item 18 items you'll discuss

Tired of gathering this every cycle?

Pilot Medical Guardian saves it all and autofills MedXPress for you at pilotmedicalguardian.com
